Congratulations on your purchase of your new Light Cube. The Light Cube is perfectly suited for product and people photography.

Please read the assembly instructions carefully and check if the supplies are complete.

### Scope of delivery:

8 x 2 rods (1x 82cm + 1x 80cm) for the short sides, each with connecting piece for the corner joint

4 x 3 rods (1x 80cm + 2x 76cm) for the long sides

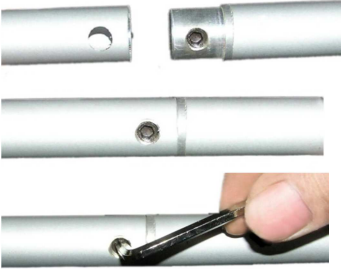

1 x 2 rods (1x 80cm + 1x 82cm), spare or for cross connection

1x matching socket wrench

1x fabric cover

## Assembly:

	<p><b>Step I</b></p> <p>Start with the assembly of the frame. For each of the short sides, you stick and screw together two rods A in the middle. For each of the long sides, you need the rods B (2x76 cm, 1x 80cm).</p>
	<p><b>Step II</b></p> <p>For the bottom rods, pull the rods A and B through the fabric loops.</p> <p>A connection of the ends is possible with the black connecting pieces of the short sides A.</p>
	<p><b>Step IV</b></p> <p>The fabric cover is pulled over the frame from the back and stretched and fastened on the inside of the frame with the Velcro strip.</p>
	<p><b>Step V</b></p> <p>The fabric cover can be sealed on the front using the Velcro strip.</p>

**Note:** Please retighten all screws using the socket wrench at the end.
