Thank you very much for your confidence! We wish you much pleasure and success with your new product! The Shooting Table Tavola is ideal for realising quick and shadow-free product and material photography. It is easy to mount and demount. The Shooting Table can be folded for storage very conveniently. Due to the low weight, the Shooting Table can be used portable.

**The most interesting point about this product may be, that it can be placed on every common table. This raised position facilitates your work enormously.**

### 1. Assembly

#### Step I

Unpack the folding frame and diffusion plate carefully.

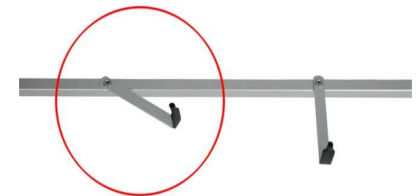

#### Step II

Open the feet (A) in the front area firstly. Afterwards, you can open the rear side rods (B) as to complete the corpus. Please make sure, that all joints are opened and stretched completely.

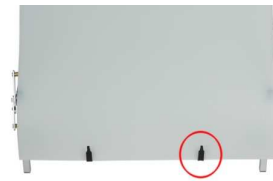

#### Step III

The front holders for the diffusion plate must be turned downwards.

**Step IV**

Insert the diffusion plate into the holder for the diffusion plate as mentioned in **step III**.

**Step V**

Direct the diffusion plate carefully along the rods to the upper end and fix it in the designated metal tangs.

**Step VI**

For the lateral fastening, please use the studio clips.

**Step VII**

Your Shooting Table is now ready for operation.

**2. Technical specifications**
